

### Car Race Review Game

To prepare this game, cut out the cars and the man. Put clear contact paper on each figure.

Divide the class into two teams. Assign a race car to each team and put both cars on the left side of the flannelboard (with tape or plastic tac). Put the man with the flag at the finish line (at the right side of the board). Divide the space between them into five equal parts, using pieces of tape.

Ask the first question. The child who stands and gives you the correct answer gets to move his team's car to the first piece of tape. Continue asking review questions until one team has moved its car all the way to the finish line!
