

“Grab a Snack” Review Game

Prepare the game by cutting out each figure. Also cut out twelve identical circles from heavy paper, using the pattern above. Glue one piece of food on the back of each circle and cover them all with clear contact paper.

To play the game, put all of the circles on the table (food side down). Divide the class into two teams. Ask a review question. The child who raises his hand and gives the correct answer gets to turn over two circles. If the two foods are the same, he keeps them for his team and turns over another two circles. If they match, he can continue to go on, but if they are different at any time, he must turn them over and replace them in the same place. Ask another review question, and continue like this until all of the foods are matched and taken to the teams who matched them. Count the food each team has collected. The one with the most wins!
