

### **Race Around the World Review Game**

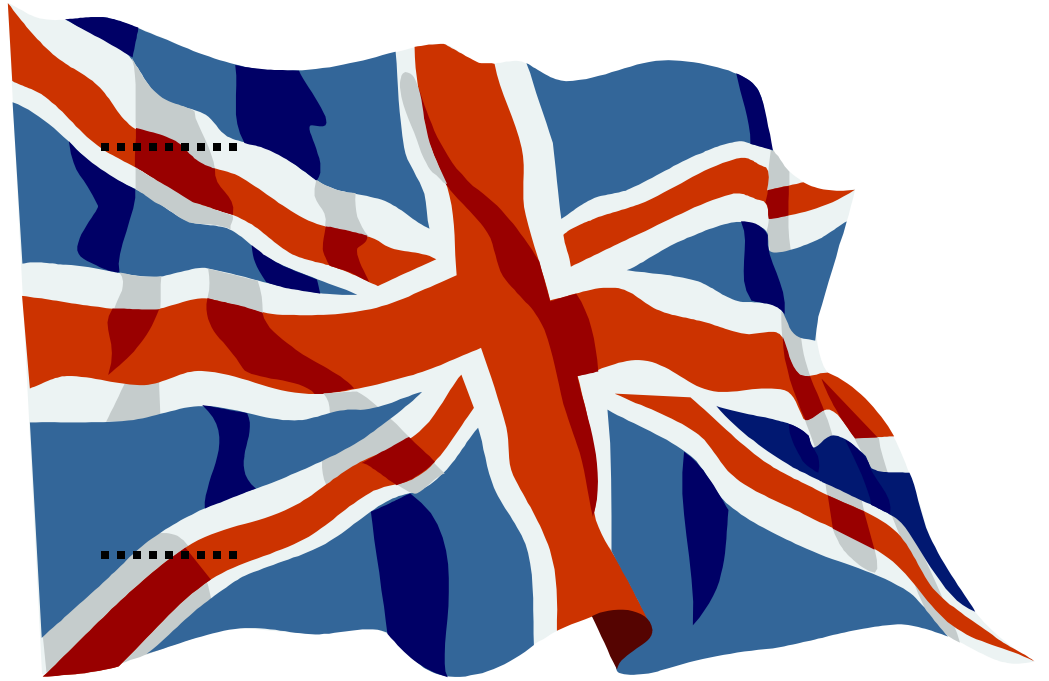

To prepare this game, cut out each flag and glue its country's name on the back. Put clear contact paper on each side and then with a sharp knife cut along the two dotted lines on each flag. You will also need two straight wooden dowel rods (to act as flagpoles).

Divide the class into two teams. Assign a flagpole to each team. Place the flags on your desk. Explain to the class that each team is going to take a world cruise. In each country they stop in, they will be given that country's flag to put on the flagpole. The team that gets five flags on its flagpole wins.

Ask review questions, one at a time. The child who stands and gives the correct answer gets to choose which country the team will visit next and slide that country's flag onto his team's pole.
