

## Rock Climber Review Game

Cut out the rock climbers and cover them with clear contact paper. Stick them to the bottom of your whiteboard with a piece of tape or plastic tac. Draw a mountain above them with a flag at the top. Draw five marks between the top and the bottom of the mountain.

Assign a climber to each row of children. Ask a review question. The child who quietly stands first and gives the correct answer gets to move his team's climber up to the first mark. Continue asking review questions until one team's climber reaches the flag on the top of the mountain!
