

### Skittles Review Game

You will need a small container with a lid on it. Cut a small hole in the lid so that only one Skittle will shake out at a time. Fill the container with Skittles (or M&M candies). Assign each color of Skittle a certain number of points (for example, red = 5; green = 3; yellow = 1, etc.).

Divide the class into two teams. Ask a review question. The child who stands first and gives the correct answer gets to shake a Skittle into his hand. If the Skittle is red, he gets 5 points for his team. Then he gets to eat it! When you are finished with your questions, count each team's points and give the rest of the Skittles in the container to the team that has the most!
