

### Soccer Review Game

Prepare this game by cutting out the balls. Glue a toothpick to the back of each one with liquid glue. After the glue dries, cover both sides of the ball with clear contact paper. Color the playing field and cover it with clear contact paper. Cut a slit for each goal where the toothpick can be put into.

Divide the class into two teams. Assign a goal to each team. Ask a review question. The child who stands first and gives the correct answer gets to come and put a ball into the opposing team's goal. When you are finished asking all your questions, count to see which team scored the most goals!
