

Tic Tac Toe Review Game

To prepare this game, cut out each figure and put clear contact paper on both sides of them.

Draw a tic tac toe design on your white board. Divide the class into two teams and assign one to hamburgers and one to pizzas. Ask a review question. The child who stands first and gives the correct answer gets to place one of his team's figures on the tic tac toe board with a piece of tape or plastic tac. Continue in this way until one team gets three in a row.

Variations: Use any two objects to replace the pizza and hamburger pictures in this game (for example, two different kinds of candy or gum).

Also try human tic tac toe. Make a tic tac toe board on the floor, using masking tape. The child who answers the question correctly gets to come and stand anywhere on the board that he wants, making the "X" or "O" shape with his arms.
